### **ABSTRACT**

This paper presents the format and guidelines for the preparation of a paper for submission to the 8<sup>th</sup> Asia Pacific International Symposium on Combustion and Energy Utilization. The style format given here is a desired one and should be followed as an example only. Format for Tables, Equations, References, Acknowledgements, Appendix, and Figures are also given. Abstracts are limited to 200 words only which should be free from equations, figures and tables.

**Keywords:** Up to five (5) keywords should be given relevant to the topic.

### **1.0 INTRODUCTION**

It is important to follow the guidelines presented in this sample paper to ensure uniformity among the papers to be published in the proceedings of the 8<sup>th</sup> Asia Pacific International Symposium on Combustion and Energy Utilization. This document provides information regarding margins, type sizes, and fonts. It is recommended that you use word for windows to create the text and to insert or draw figures.

### **2.0 FORMAT**

Each paper is to be submitted in camera ready format and is limited to not more than six (6) pages using a single column format. One hardcopy and an electronic copy (preferably in MS Word) in a 3.5 inch diskette or CD or via email must be submitted by May 30, 2006 to the conference Secretariat. The paper is to be prepared using an A4 (210 mm X 297 mm) size paper and typed with a margin of 25 mm on top, bottom and right sides, and 30 mm on left side.

#### **2.1 Paper Title**

The paper title should be typed in bold face, centred and placed 50 mm from the top of the first page. The paper title should not be underlined. The name(s), affiliation(s), and addresses should be centred around the page. The first character of every word in the title block should be in capital letter.

#### **2.2 Headings and Sub-headings**

All section headings should be aligned to the left and in bold faced capital letters. All headings should be preceded by a blank line. Body texts are to be full justified.

First Sub-headings, should be aligned to the left of the column and bold faced. The first character in each word in the sub-heading should be in capital letters. The text should continue in the next line.

Second set of sub-headings (They are within the first set of sub-headings) should be aligned to the left of the column and be in italics. No blank lines are required and text should continue in the next line.

#### **2.3 Typefaces and Sizes**

The manuscript should be typed in Times New Roman with a single space between the lines. The font sizes are demonstrated in Table 1.

25 mm

Table 1. Font Sizes

| Size      | Usage  |
|-----------|--|
| 8 Points  | For subscripts, superscripts and footnotes                     |
| 10 Points | For body text, MAIN HEADINGS,<br>Sub Headings and Affiliations |
| 12 Points | authors' names   |
| 14 Points | For paper Title  |

### 3.0 ADDITIONAL REQUIREMENTS

#### 3.1 Figures and Tables

Figures and Tables should be included in the body of the paper but should not appear before they are mentioned in the text. Figure captions should be placed under the figure and table captions should be placed above the tables. Spell out the word Figure and Table in captions and the first letter in each word is to be in capitals. No bold faces are necessary. Tables and Figures are to be centered along with their captions. When mentioning a figure in the text use Fig. X, even at the beginning of a sentence. All figures should be in black and white and of high clarity including photographs.

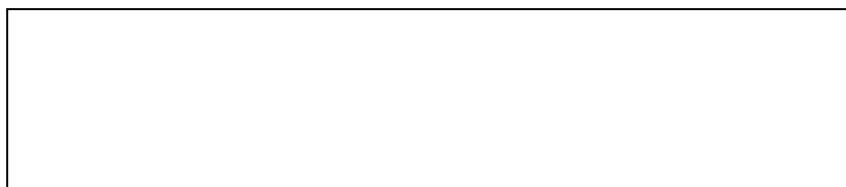

Figure 1. Title of Figure.

#### 3.2 Abbreviations and Acronyms

Define the less commonly known abbreviations and acronyms the first time they appear in the body of the text, even if they have been defined in the abstract. Do not use abbreviations in the paper title and figure captions.

#### 3.3 Equations and Symbols

Number equations consecutively with equation numbers in parentheses flush with the right margin. All symbols must be defined either in the body of the text. Reference to the equations should be in the form Equation (2).

Use the International System of units (SI) in your paper.

### 4.0 CONCLUSIONS

Every paper should have conclusions. Use this section wisely to summarise what is presented in your paper. Conclusions should be limited to 200 words.

### ACKNOWLEDGEMENTS

The author would like to express his gratitude and sincere appreciation to X. Y. Website for his valuable comments and suggestions.

### REFERENCES

References should be numbered consecutively with Arabic numerals in the text. They may be referred in the text by their number inside a square bracket, eg. [1]. List of references should include (in the following order): author name(s), *title of paper (italic font)*, title of journal (underline font), volume and year of issue; or title of book (underline font), publisher, edition and year of issue.
